SUMMARY

Innovative and results-oriented Software Engineer with a proven track record spanning over 5 years. Proficient in cutting-edge technologies—HTML, CSS, JavaScript, TypeScript, React Js, React Native, Node.js, and more. Recognized for driving projects that achieved a 50% boost in app efficiency, a 15% improvement in SEO, and a significant 10% reduction in consumer costs. Eager to contribute technical expertise to a dynamic team, fostering innovation and impactful solutions.

PROFESSIONAL EXPERIENCE

Lead Software Engineer | StringCode Ltd.

full stack engineer   (March, 2022 - Present)

frontend engineer   (July, 2020 - Feb, 2022)

- Orchestrated a team of 2 Designers and 5 Developers to craft user interfaces for diverse web and mobile applications.
- Spearheaded seamless mobile app deployment through React Native, collaborating with cross-functional teams.
- Utilised Next js and other modern frameworks to create dynamic and performant web applications and increase SEO by 15%.
- Engineered APIs and data handling mechanisms, optimising data management and retrieval using React.js, Node.js, and Express.js.
- Pioneered API-first development, ensuring agile integration of web and mobile applications.

Frontend Engineer | Glumia Solutions

Oct 2021 - Oct 2023

- Collaborated with a team of 4 to Developed robust and highly performant iOS and Android mobile applications using React Native.
- Leveraged React js to create web applications from scratch, demonstrating expertise in this technology.
- Utilised various testing and experimentation strategies in web and app development.
- Applying a comprehensive grasp of application lifecycles with a focus on precise implementation.

Frontend Developer / Scrum Master | Bazebo ng

Mar 2019 - Aug 2021

- Designed and developed intuitive user interfaces for web applications using JavaScript, TypeScript, React js, Next js HTML, and CSS.
- Conducting scrum meetings facilitating communication channel between product owner and the rest of the team.

Tech Lead Software Engineer (Contract) | VisionVoice Inc / TETFund

Jul 2022 - July 2023

- Collaborated with a team of 5 to empower 200 university ICT professors with essential tools and knowledge to revolutionise the technology landscape in Nigerian tertiary institutions.
- Created visually appealing and user-friendly interfaces for web applications, optimising user experience.
- Mentored and guided 30 underprivileged software engineering candidates, assisting with data structures and algorithms.
- Utilised React.js to build efficient and reusable components, resulting in streamlined development processes.
- Conducted thorough testing and troubleshooting to ensure high-quality and bug-free applications.
- Led comprehensive training sessions across 3 major geo-political zones on critical subjects such as Database Management, Web Development, and Internet of Things.

EDUCATION & CERTIFICATION

- Marine Engineering (BSc) | Maritime Academy of Nigeria | 2014-2019
- Software Development | LocTech Institute of Technology
- Scrum Fundamentals Certified | Accreditation Body for Scrum and Agile Methodologies
- Master Project Manager | International Project Management Board
- IBM Engineering Systems Design | IBM

SKILLS

Active collaboration | Excellent verbal and written communication in English | Innovation in software development | Strong debugging and troubleshooting | Quality assurance and app testing | Agile and Scrum methodologies | Cross-functional team leadership | Mentorship and team development | Project management and delivery

TECHNOLOGIES

HTML & CSS, Bootstrap, Tailwind, JavaScript, TypeScript, React js, Next js, React Native, Redux, Firebase, Node.js, Express.js, MySQL, MongoDB, Git + GitHub, Jira, Ms Word, Ms Excel

PERSONAL PROJECTS

Commercial Solutions
- My team and I collaborated closely with 10 local businesses to understand their needs and tailor solutions accordingly.
- Developed and launched e-commerce platforms for small retailers, enabling them to expand their reach and digital presence thereby increasing sales by 40% .
- Utilised technologies such as Typescript, React.js, Firebase, Node js and MongoDB to create user-friendly interfaces with seamless payment integration to user experience by 50%.
